## A BURST OF BOLD INNOVATION

Hotel Mousai in Puerto Vallarta sets the pace for a new generation of designer hotels for guests aged over 16 years old, where fresh flirtatious aesthetics and cutting-edge comfort will inspire you to live sensationally. An eclectic yet precise fusion of imagination, contemporary design and inventive functionality generates spaces of artistic magnitude and dazzling personality - a gallery of experiences and creativity.

From its humble beginnings as a picturesque fishing village to its fame during Hollywood's heyday when Elizabeth Taylor and Richard Burton graced its cobblestones, it still continues to captivate guests with its contemporary-chic ambience and glamor, boasting some of the finest high-end restaurants, golf-clubs, excursions, shopping and contemporary art galleries, not to mention its exciting nightlife.

The beauty and unparalleled charisma of Vallarta lies in its unique blend of traditional 'Old Mexico' charm with the modern amenities of a cosmopolitan setting. The city is graced with beautiful architecture, cobblestone streets and white stucco buildings crowned by flower-covered balconies and red tile roofs. Renowned for its balmy and sunny climate throughout the year, when in Vallarta there's no doubt you're in paradise.

## DELECTABLE DINING, SOUTH TOWER

Continuing to break the mold of resort dining, with both all-inclusive and room-only plans available, the Mousai South tower promises unique and unforgettable gourmet culinary experiences with two fine dining restaurants and a Rooftop restaurant and bar.

### DAO

DAO is a new gourmet Chinese cuisine concept that will be the centerpiece of Mousai located in between the two towers. This elevated restaurant and lounge offers gorgeous views of the surrounding tropical rainforest with Mondrian style glass walls. Its double height interior adds a depth of dimension to the remarkable space.

### NOI

NOI is an Italian restaurant located adjacent to the lobby where flavorful cuisine and modern art hold hands because... food is art. While traditional Italian restaurants conjure images of brick walls and dimly lit spaces illuminated by red and white checkered tablecloths, NOI emerges on the scene with a completely new concept.

## The Rooftop South

The Rooftop is the main attraction for flirtatious lunches and star-gazing romantic dinners on Puerto Vallarta's highest rooftop. As soon as you step out of the elevator, you will be amazed by the sweeping views of the jungle and dazzling colors of the ocean, which form a mighty backdrop to accompany your journey of the palate.
